

TrimMaster™

Professional Floor Solutions

Profile reveal allows for floor expansion

Recessed Channel for Fasteners

- **Patent Pending Tapdown SecureFit™** feature allows one size molding to fit floors of different thicknesses
 - The dimple design in the hinge point taps down with smooth flex without denting metal
 - Taps down with rubber mallet for secure fit with flooring
- Profile reveal protects edge of flooring and meets floating floor specifications of 1/4" for expansion and contractions
- Recessed channel in anchor leg allowed customer to countersink screw heads if installing with fasteners
- **Thicker aluminum walls**
 - Provides more protection to flooring product
 - Cutting - easier, safer, and more reliable cut edges
- **Supply Chain**
 - 7ft lengths are cost effective to transport
 - Fits in standard pickup bed or work van
 - Allows Pro's to hold inventory in work vehicle

3 TRANSITION PROFILES TO CHOOSE FROM:

SQUARE
Transitions to carpet or similar height surface.

T-SHAPE
